

Porsche 911 997 Hood Struts Replacement

Step-by-step tips on Porsche Carrera 997 Hood Struts Replacement. Applies to 997.1 and 997.2 models

Written By: DriveDIY

INTRODUCTION

The hood struts over time will lose their ability to fully support the weight of the hood.

Its a really easy fix that even a first time DIYer can accomplish!

TOOLS:

- [Nitrile Disposable Gloves](#) (1)
- [Small Flat Screwdriver](#) (1)

PARTS:

- [Porsche Hood Strut 997.511.551.01](#) (1)

Step 1 — Open Hood

- Open Hood to expose struts

Step 2 — Support Hood

- Before removing struts , support the hood. A adjustable painters stick works really well

Step 3 — Remove Hood Strut

- Using a small flat head screw driver , pry open metal clips on the top and bottom of strut

Step 4 — Replace in reverse

- Porsche Part # 997.511.551.01
