

Porsche Headlight Restoration

This guide will show you how to restore headlights that are turning yellow and faded.

Written By: DriveDIY

INTRODUCTION

This guide will show you how to restore headlights that are turning yellow and faded.

TOOLS:

- [3M Headlight Restoration Kit & Protectant](#) (1)
 - [Nitrile Disposable Gloves](#) (1)
 - [Masking Tape](#) (1)
 - [Power Drill](#) (1)
-

Step 1 — Tape Area around headlight

 use two layers of masking tape to protect to vehicles paint

Step 2 — 500 Grit Sandpaper

- Using the supplied 500 grit sandpaper and drill adapter , evenly sand the entire headlight.
- Do not apply too much pressure and maintain a relatively moderate drill speed (1200-1600 RPM)
-  I removed the sand paper and finished it by hand to reach any areas near the edges.

Step 3 — 800 Grit Sandpaper

- Using the supplied 800 grit sandpaper and drill adapter , evenly sand the entire headlight.
- Do not apply too much pressure and maintain a relatively moderate drill speed (1200-1600 RPM)
- I removed the sanding paper and finished it by hand to reach any areas near the edges.

Step 4 — 3000 Grit Wet Sanding Pad

- Apply some water to the sanding pad and evenly polish the headlight.

Step 5 — Rubbing Compound

- Using the soft pad and rubbing compound ,polish entire headlight.
- Apply a dime sized amount of compound on pad and spread around headlight to prevent splashing of the compound.

Step 6 — Finished Results!

- Looks awesome!
